

MEDIA RELEASE

10 November 2017

Closure of 360 Just Better Care franchise in Western Australia

The Board of 360 Health + Community (360 H+C) today announced the closure of its Just Better Care franchise in Western Australia from Thursday 23 November, 2017. Franchisor, Just Better Care Australia (JBCA) operates numerous Just Better Care franchises across Australia which are unaffected by this decision.

360 Just Better Care offered 'in-home care' services in the aged care and disability sectors. 360 H+C have recently reviewed their wide ranging client-centred healthcare services resulting in a re-aligned strategic direction focussing on delivering tailored specialist services in community based centres, that is a clear shift away from the 'in-home care' services offered by Just Better Care.

360 Just Better Care clients will receive the full expertise and support of 360 Just Better Care staff as they transition across to other services providers.

360 H+C would like to acknowledge the dedication of its Just Better Care staff over the last two years and the support of franchisor Just Better Care Australia in coming to this decision.
